

## Assure Wear

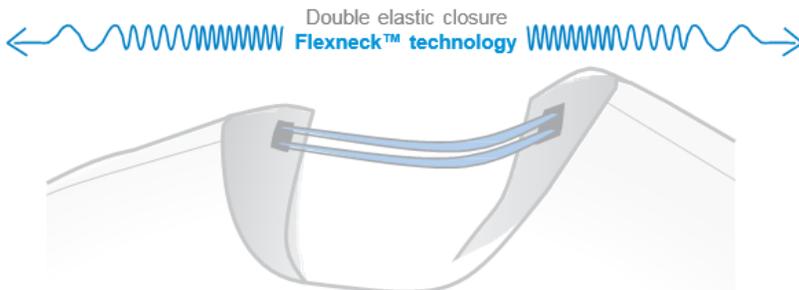

Offering **best-in-class infection control compliance** as part of the most versatile line of protective apparel available, the **VersaGown** with **Flexneck Technology** answers the need for quick and easy donning and removal while maintaining exceptional protection and comfort.

**Flexneck** is the most flexible closure available on the market today and allows healthcare professional to don protective apparel with a quick, expansive over-the-head motion without compromising safety or protection that comes from untied, gaping gowns that can slip and expose.
