RETHINK PATIENT WARMING

More Than Just Comfort

Patient warming is about more than providing comfort. Maintain normothermia throughout a procedure and hospital or clinical stay to:

- Decrease blood loss
- Reduce incidence of surgical site infection
- Shorten stays and reduce readmissions
- Improve patient satisfaction and comfort

Enthermics' flexible warming technologies help you maintain patient normothermia from admission to discharge. Available in a range of sizes and types, we have warming solutions to fit most any budget.
