ABOUT AMERICAN DIAGNOSTIC CORPORATION

American Diagnostic Corporation (ADC) is one of the world's premier manufacturers of diagnostic medical products, personal instruments, and accessories for the healthcare industry. For more than thirty years, we've been dedicated to designing, manufacturing, and supplying stethoscopes, blood pressure instruments, and other core diagnostic products that provide an unmatched value proposition with a purchase experience that is second to none.

OVERENGINEERED, NOT OVERPRICED.

We contract with the world's leading manufacturers to produce ADC components to our exacting specifications. Then, using custom-built inspection equipment, we subject the components to rigorous testing before the instruments are assembled and packaged in our New York facility.

**A COMMITMENT TO QUALITY**

Our manometers are engineered exclusively for ADC by one of the oldest and most respected manufacturers of aneroid gauges. Produced exclusively for ADC in their state of the art facility, the gauges are subjected to rigorous quality control measures before being shipped to us. We then subject every single gauge to a visual inspection, test up to 15% for accuracy, and subject a random sample from every batch to a destructive

endurance test—putting them through 30,000 inflation cycles. That's three times the requirement under ANSI/AAMI/ISO 81060. We hold our gauges to accuracy requirements 33% more demanding than the industry standard.

**DOMESTIC ASSEMBLY**

Each and every manual sphyg is assembled by hand in our Hauppauge, New York facility. Our production staff are thoroughly trained and empowered to reject any non-conforming components. We hire locally, keeping jobs in the US and promoting loyalty and teamwork amongst our staff. This helps ensure that we provide the best products and support services to our customers.

Our Promise to You

Here at ADC, we promise to work for you, every day.

We promise to design and sell the best, most feature-rich professional diagnostic products at truly competitive prices, every day.

We promise to value every consumer, whether you're a physician, a healthcare institution, an EMT, a nurse, or a medical student, every day.

We promise to provide an unrivaled relationship with our vendor partners, sales representatives, dealers, and their associates, every day.

We promise to continue to uphold our high standards of quality and service throughout the life of your purchase.

That's the ADC Advantage.
