stryker

Prime Series[®] Stretcher

Mobile. Safe. Efficient.

Our Prime Series Stretchers are designed to reduce physical strain on clinicians, enhance patient comfort and drive hospital efficiency. Transporting heavier patients is now easier with Stryker's advanced mobility; while electric functionality gives patients the independence to adjust themselves without calling for caregiver assistance. Fully equipped and highly configurable, our Prime Series Stretchers allows you to create the ideal solution to meet your specific needs.

dvanced Stretcher mobility

Zoom with Motorized Drive Virtually eliminates manual pushing.

Big Wheel Reduces start-up push force and steering.

Electric-powered lift eliminates manual pumping, allowing for quick patient access and caregiver safety. Simply touch the hydraulic pedal to raise the litter.

Chaperone Stretcher Exit System with integrated scal

is a two-zone alarm which helps reduce patient falls. The integrated scale provides patient weight in both kilograms and pounds.¹

 $^1\pm3$ lb (1.3 kg) for weights less than 100 lb (45 kg) and $\pm3\%$ for weights greater than or equal to 100 lb (45 kg) To meet the scale accuracy claim, the patient surface must be in the flat position (Fowler backrest and gatch down),in the highest position, and the product cannot exceed 5 degrees of Trendelenburg/Reverse Trendelenburg.

Recovery chair position helps eliminate the need for unnecessary transfers by providing a comfortable seated position.

Lift Assist Backrest uses the patient's weight to raise the head of the stretcher while the drop seat design helps reduce boosting. Also available as a fully electric option.

Patient controls allow for fewer interruptions for you. The patient has control of their own comfort with the staggered control panels on the Glideaway siderails.

IsoFlex SE Gel Support Surface² offers pressure redistribution and comfort as a component to aid in the treatment and prevention of pressure injuries.

Power-washable³ design with 700 lb. safe working load.

²Recommended to be implemented in combination with clinical evaluation of risk factors and skin assessments made by health care professional ³1105 and 115 models only

Prime Series Stretcher

Standard features

- 700 lb weight capacity
- Less than 21-inch low height
- Litter-mounted oxygen bottle holder
- Power-washable design (1105 and 1115 only)
 Center-locking brake system with dual end activators
- Dual, side-mounted foot control hydraulics with uni-lower pedal
- Dual end brake/steer controls
- Glideaway Siderails
- 4 integrated IV receptacles
- +/- Trendelenburg
- 8-inch Omni Surface Casters with integrated wheel covers
- Pneumatic backrest/stationary foot
- Thermoformed ABS base
- Integrated utility tray
- Integrated transfer board

Warranty

Two years parts, labor and travel

Electric functionality (30 inch only)

- Electric patient controls
- Foot end nursing controls
- Powered lift
- Chaperone Bed Exit System
- 120V or 240V available

Optional features

- Big Wheel Advanced Mobility (1115)
- Zoom Stretcher with Motorized Drive System
- Support surfaces:
 - IsoFlex SE Support Surface
 - ComfortGel SE Support Surface
 - UltraComfort SE Support Surface
- Four-sided brake/steer controls (1105 and 1115)
- Pop-up push handles
- Electric powered knee gatch
- Lift Assist Backrest design with drop seat
- Integrated scale system
- Chaperone Bed Exit
- Three-sided hydraulic controls (1105 and 1115)
- Dual-ended siderail release
- IV pole
- Permanent two- or three-stage
- Removable
- Serving tray
