This manual has been prepared for the owners and operators of the ARMEDICA ${ }^{\text {TM }}$ AM-BA Series Hi-Lo Treatment Tables. It contains installation instructions, precautionary instructions and maintenance procedures for the following model numbers:

AM-BA150, AM-BA200, AM-BA250, AM-BA300, AM-BA350, AM-BA400, AM-BA450, AM-BA500, AM-BA550

## AM-BA SERIES HI-LO TREATMENT TABLES

Armedica Treatment Tables are intended to be used as physical therapy supports for patients during clinician attended physical therapy related diagnosis, treatment, and monitoring. The table is equipped with a vertical table height adjustment actuator and casters for mobile transport.

Patients are not to be left unattended.

## INSTALLATION

1. Remove all packaging material from the tables.
2. There is no assembly required on the ARMEDICA ${ }^{\text {TM }}$ Treatment Tables.
3. Plug the power cord into a properly grounded 120 Volt AC outlet and follow the procedure outlined in the Precautionary Instructions.
4. The table is equipped with four total lock swivel casters for maximum stability.
5. The motor is equipped with a thermal cutout that protects it from overheating.

## OPERATING INSTRUCTIONS

To adjust the height of the ARMEDICA ${ }^{\text {TM }}$ Treatment Tables, a foot bar extending the length of the table is used to activate the electric motor assembly. Pressing down on the bar will raise the table. Pulling up on the bar will lower the table.

Duty cycle on/off Int. 1 min./ 9 min.

## TABLE SECTION ADJUSTMENTS

The sections of the ARMEDICA ${ }^{\text {TM }}$ Treatment Tables are raised by lifting them with both hands. The locking mechanism holds them securely at any angle. To lower a section hold it in one hand and release the locking mechanism by turning the knob with the other.

CAUTION: When lowering any of the table sections, make certain that your hands are placed where they cannot come in contact with the board supports.
$\overline{\text { CAUTION: When adjusting the sections with the patient on the table, be sure that the patient's weight is not on }}$ the section you are going to adjust.
To adjust the center section on the AM-300 and AM-500 the spring-loaded lock must be released before the section can be raised.

CAUTION: When the center section is lowered, make sure that the lock is properly engaged.
To adjust the foot section on the AM-400 and AM-450, rotate the knob to the unlock position.
To adjust the arm rest on the 3 piece head section, use two hands placed on each end and pull out to the side then raise or lower into the up or down position and release.

CAUTION: Make sure the arm rest on the 3 piece head section is locked securely in position before the patient places any weight on it.

## PRECAUTIONARY INSTRUCTIONS

1. Read, understand and practice the precautionary instructions in this manual. The AM-BA series treatment table is an adjustable platform to place the patient on for the clinician to diagnose or treat with another modality. Know the limitations and the hazards associated with the ARMEDICA ${ }^{\text {TM }}$ Treatment Tables.
2. The table is not intended to be used inside an operating room. There may be a risk of explosion if table is used in the presence of flammable anesthetics.
3. The motor is double insulated for protection from EMI. This equipment has been tested and found to comply with the limits for medical devices to the IEC 60601-1-2: Third edition 2007-03. These limits are designed to provide reasonable protection against harmful interference in a typical medical installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to other devices in the vicinity. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to other devices, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving device.
Increase the separation between the equipment.
Connect the equipment into an outlet on a circuit different from that to which the other device(s) are connected.
Consult the manufacturer or field service technician for assistance.
4. Always make certain all four casters are locked prior to patient use.
5. Always use both hands when changing the angle of any section of the table.
6. Never change the angle of any section when the patient's weight is on that section.
7. Never place your hands or feet nor the patient's hands or feet near any of the working mechanisms of the table when raising or lowering the table.
8. Never leave patient unattended.

## MAINTENANCE

The ARMEDICA ${ }^{\text {TM }}$ Treatment Tables are equipped with a maintenance free electric motor. The moving parts of the table should have a drop of oil placed on them approximately every six months.

Frequently check to make certain that all hardware (nuts, bolts, etc.) are properly adjusted and securely fastened.

In the event it becomes necessary to replace the activation bar cord or the power cord, make certain that the plug is in properly and the locking tabs on the motor are snapped into place.

The vinyl cover should be cleaned with mild soap and water and the table frame wiped with a dry cloth to remove dust and lint when necessary.

## SYMBOLS AND INDICATORS

Attention: Consult accompanying documents.
Type B Equipment: "An adequate degree of protection against electric shock is provided, particularly regarding leakage currents and reliability of the protective earth connection."

The grounding pin located on the power supply cable is for functional use only, and is present for EMI/
EMC purposes. The product is Class II equipment and does not rely on this grounding means for safety.

## TROUBLE SHOOTING

## MOTOR DOESN'T WORK.

A. Check to see if motor is plugged into receptacle, and the power cord is properly plugged into the motor.
B. Make sure receptacle is getting power.
C. Check switch cable running from switch box and make sure it is plugged in properly.
D. Thermal cutout may have activated. Allow the motor to cool.
E. In the event there is a failure of the motor, the motor must be returned to Armedica Mfg. Corp. The motor must be serviced by the manufacturer.

## MOTOR SPECIFICATIONS

> Magnetic Corp., Olney, Illinois 62450 Model MAX $65-A 200415 A 1001-000$. Rated Voltage and Frequency 120 V 60 HZ . Current 1.8 Amps. UL CORD SET 140-355 Duty cycle: on/off Int. 1 min. / 9 min. Micro switch model E13-00K

## Transport and Storage

Ambient Temperature: - 20 to 70 deg. C Relative Humidity: 10 to $100 \%$, including condensation
Atmospheric Pressure: 500 hPa to 1030 hPa

## MICRO SWITCHES

The bar activated treatment table is equipped with 4 micro switches located in the box mounted on the foot end of the base. The switches are designed to provide years of reliable service. In the rare case that a switch does become inoperative, the box at the end of the table must be accessed. The switches are low voltage and are not a shock hazard. However caution should be used while servicing. The wires connecting the terminals to the switch are light gage and easily damaged. To replace a micro switch, follow these instructions while referring to switch box and wire diagram drawings.

## DISCONNECT THE TABLE FROM THE WALL OUTLET BEFORE REMOVING SWITCH

1. Remove the cover plate (49) by removing 2 screws (145) from the top and 2 black plastic reusable rivets (87) from the bottom. Carefully slide the blade of the screw driver under the head of the rivet so damage to the finish does not occur. The head of the rivet will pop up allowing it to be removed. DO NOT DISCARD RIVETS.
2. Using both hands, gently remove cover plate by pulling directly away from mounted switch plate (50).
3. After determining which micro switch is not functioning by pushing or pulling on the foot bar, disconnect the table from the power source.
4. Using a $5 / 16$ " wrench remove two nuts (18) from the threaded studs and carefully remove the switch taking care not to damage the wires connected to it.
5. Remove the terminals from the switch by gently tugging on them. DO NOT PULL WIRE.
6. After the micro switch is disconnected, reconnect the replacement switch referring to the wire diagram found in this manual making certain the terminals are securely connected.
7. Once the wire terminals are connected to the replacement switch, make sure the plastic spacers (55) are on the threaded stud prior to reinstalling replacement switch.
8. Replace nuts (18) and securely tighten taking care not to over tighten.
9. Reconnect table to power source and test. Providing the table is operating correctly, replace cover plate ensuring that the side shields (146) are in place and reusing the screws, washers and plastic rivets.

## ARMEDICA ${ }^{\text {TM }}$ MANUFACTURING CORP. LIMITED WARRANTY

ARMEDICA ${ }^{\text {TM }}$ Manufacturing Corp. warrants that the AM Series treatment tables are free from defects in material and workmanship. This warranty shall remain in effect for 18 months from the date of original consumer purchase of the product. If the product fails to function during the warranty period due to a defect in material or workmanship, ARMEDICA ${ }^{\text {TM }}$ Manufacturing Corp. or the selling Dealer will repair or replace the table without charge within a 30 day period from the date on which the table is returned to ARMEDICA ${ }^{\text {TM }}$ Manufacturing Corp. or the selling Dealer.

## THIS WARRANTY DOES NOT COVER

1. Replacement parts or labor furnished by anyone other than ARMEDICA ${ }^{T M}$, Selling Dealer or approved ARMEDICA ${ }^{\text {TM }}$ Service Agent.
2. Any failure of the table during the warranty period if the failure is not caused by a defect in material or workmanship or if the failure is caused by unreasonable use, including the failure to provide reasonable and necessary maintenance.

## ARMEDICA ${ }^{\text {TM }}$ MANUFACTURING CORP. IS NOT LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGE TO PROPERTY OR BUSINESS.

To obtain service under this warranty, please do the following:

1. A written claim should be sent to ARMEDICA ${ }^{\text {TM }}$ Manufacturing Corp., P.O. Box 880, Greenwood, AR. 72936-0880 or the selling Dealer.
2. The table must be returned to ARMEDICA ${ }^{\text {TM }}$ Manufacturing Corp. or the selling Dealer.
3. This warranty gives you specific legal rights and you may have other rights, which vary from state to state

ARMEDICA $^{\text {TM }}$ does not authorize any person or dealer to create for it any other obligations or liabilities in connection with the sale of the tables. Any representation or agreement not contained in this warranty shall be void.
