

STAT KIT® 750

EMERGENCY MEDICAL KIT

Choose the model configured for your practice:

- STAT KIT® 750 Office-based medical practice
- STAT KIT® 750-AI Office-based medical practice
Adds pediatric epinephrine auto-injector

STAT KIT® 750 highlights

STAT KIT® 750 Emergency Medical Kits provide a comprehensive set of medications and devices in a mobile, durable and secure hard-case. They are organized for quick access into sections and medication trays, all clearly labeled and categorized into key areas of care. They allow the caregiver to provide BLS and ACLS.

- Complete set of medications
- Designed to help meet accreditation standards
- Durable, secure and mobile hard-case
- Always up to date

Always up to date

HealthFirst tracks expiration dates of medications and automatically replenishes them before expiration. If you are enrolled in the EMM program, HealthFirst will also replace the used medication in case of an event at no additional cost.¹ Practices benefit by maximizing shelf-life of medications, lowering costs, saving time and gaining peace of mind.

OnTraq

OnTraq is an online account management tool that allows users to view each medication, expiration dates, lot numbers, national drug backorder status, and upcoming medication replenishment shipments.

The STAT KIT® 750 contains the following essential medications and devices:
