

Blood Rocker

The LW Blood Rocker is widely used in hematology, chemistry, research and bacteriology laboratories for blood sample tubes and small vials. The gentle rocking motion assures mixing without damage to fragile cell suspensions. The rubber cushion can be easily removed for cleaning.

FEATURES

- 16-tube capacity
- Precision-controlled rocking motion
- Continuous operation
- Quiet, smooth, and steady operation
- Space-saving design
- Washable tube pad
- 24 rocking cycles per minute at 60 Hz
- Rubber cushion pad prevents test tubes from slipping
- Rubber cushion pad is latex-free
