

SURFLO® Winged Infusion Sets

Terumo's soft, flexible interlocking wings readily conform to the body's contour. The wing is angled for ease of positioning of the needle during venipuncture, for less risk of vessel damage or occlusion of the lumen.

The precisely honed needle with thin wall design assures ease of penetration and continued access with a single insertion.

Product Code Description 3½" Tubing

Packed: 100/box, 5 boxes/case (500)

■ SV*19BLS	19G x ¾"	RW
