

Never compromise strength, elasticity and resistance with this high-quality non-latex line of bands

Premium non-latex¹ construction for quality and durability

Not made with natural rubber latex, free from scents and powder while offering the same stretch as latex bands

Transformational results for patients

Non-latex bands identically match the pull force and elongation properties of latex resistance bands over repeated use

Advance patient care with confidence

Users strengthen muscles, increase range of motion and improve flexibility with this simple, economical and convenient therapy product

Proven science

Clinically proven concept of increased resistance built into the THERABAND Trusted Progression™ System, with seven engineered progression levels
