HOUSE BRAND - 116650-1 Lab Coat Sky Blue - Medium x10 US\$ 60.00

HOUSE BRAND + PLUS Lab Coats - Sky Blue - Medium

Features

HOUSE BRAND Jackets and Lab Coats provide comfort and style. Made of a soft, breathable fabric, these fluid-resistant jackets and lab coats meet OSHA requirements for blood-borne pathogens. The autoclavable, washable Rated 4 1/2+ out of 5 from the Dental Advisor. These Jackets and Lab Coats also provide the latest technology in protection, with 28% better filtration (Nelson Laboratories 1/2011), higher quality stitching, cuffs, and collar compared to the leading competition.

Characteristics

* Sell by bags of 10 units

- * Static Free - No Clinging
- * Fluid Resistant, Breathable
- * Snap Front, Knit Cuffs & Collar
- * 1 Breast Pocket & 2 Hip Pockets
- * Autoclavable and Washable
- * Latex Free

PATIENTE APRONS - CROSSTEX

ECONOBACK PATIENT BIBS - CROSSTEX

ECONOBACK PATIENT BIBS - CROSSTEX

Features:

Advantage Plus and Econoback patient towels by Crosstex come in a variety of different colors, including Econoback "Happy Feet" and "Teddy Bear" prints, making this a fun and friendly towel for pediatric dentistry. Both towels are made of 2-ply tissue and 1-ply poly for extra absorbance and softness. Advantage Plus has vertical embossing and a vantage fold; it comes in standard 13" x 18".

Econoback is slightly larger, 13" x 19", and is made from facial-quality tissue. This creped tissue is perforated, as well.

* Creates the strength of the towel horizontally through the combination of our proprietary manufacturing equipment and tissue formulation. This prevents tearing when a towel clip is applied.

* Crosstex Fold

* Embossing Pattern Horizontal

Quantity: 500/case

ZYMEX - DUAL ENZYME - SULTAN

ZYMEX - DUAL ENZYME - SULTAN

Features:

Zymex? Dual Enzyme Economical is a patented dual enzyme formulation that breaks down organic debris such as blood, rust and mineral deposits from all types of surgical instruments and scopes.

- * In addition, it will attack protein, carbohydrate and lipid containing soils.
- * Free Rinsing, does not leave a residue
- * Breaks down three times more bio burden than the market leaders within five minutes.
- * Low Foaming for use in ultrasonic cleaners, evacuation systems, reprocessing units and washer/sterilizers.
- * Contains a special rust inhibitor that prevents corrosion on metal instruments.
- * Neutral pH making it safe to use for almost any medical and dental device.
- * Economical, super-concentrated formula. 1 oz (30ml) makes 1 gal (3.8L) of solution.
- * Zymex Dual Enzyme 32 oz, 1 Quart (1.1L), 4/cs.
- * Provides Cleaning Solutions that are safe and effective in processing of all types of medical and dental devices.

COTTON ROLLS - DEFEND

COTTON ROLLS - DEFEND

These quality cotton rolls are made from 100% cotton, are non-linting, non-sterile, soft texture, pliable and 20% more absorbent than the leading brand. The virgin cotton holds together better, maintains its shape when wet and will not adhere to mucous membranes.

COTTON ROLL - RICHMOND

COTTON ROLL - RICHMOND

Features:

Richmond Dental & Medical Cotton Rolls provide the highest quality with superior absorbency, flexibility and comfort. 100% cotton braided rolls are held together with silky yarn instead of chemicals (which cause the roll to stick to mucosa), resulting in comfort for your patient. Unique wicking action provides a drier field and outstanding durability, causing faster absorption. They also have an innovative flexible design for a secure fit into the buccal curvature and the sublingual space.

DRI-AID ABSORBENT WAFERS - MICROBRUSH

DRI-AID ABSORBENT WAFERS - MICROBRUSH

Features:

Designed for ultimate patient cheek comfort, Dri-Aids? and Silver Dri-Aids? are thin, absorbent and protective wafers that improve access during procedures where a dry work area is critical for success. Silver Dri-Aids provide dentists additional benefits with a silver-coated laminated side that reflects light for improved visibility.

- * GREATER VISIBILITY: Thin, protective wafers for improved visibility
- * ULTIMATE ABSORPTION: Provide a dry work area for success
- * REFLECTIVE BACKING: Available in reflective coating to reflect light during procedure

Ideal for procedures that require a dry field to work including: bonding procedures, restorations, cementations, and sealants.

DRY-TIPS SALIVA ABSORVENT - MICROBRUSH

DRY-TIPS SALIVA ABSORVENT - MICROBRUSH

Features:

DryTips are Microbrush International's newest product offering in the moisture control category. Their saliva absorption capacity far outlasts cotton rolls and other absorbent pads and doesn't lose moisture when handled. DryTips facilitates work far back in the oral cavity by keeping the procedure area clean and dry.

DryTips function as an effective replacement for moisture control attributes of rubber dams, providing complete coverage of the parotid gland and buccal mucosa with a polyethylene film for cutting protection.

- * ULTIMATE ABSORPTION: Saliva absorption capacity 30 times its weight
- * NO MORE RESIDUE: Specially manufactured with materials that don't shed fibers or leave residue behind
- * FLEXIBLE COMFORT: Designed to accommodate cheek movements and comfortably stay in place

Ideal for: impressions, occlusion grinding, orthodontics, paint-on techniques, composites, cementation, fissure sealing and fluoride applications.

DRYDENT PAROTID 50 pk - DIRECTA

DRYDENT PAROTID 50Pk -DIRECTA

Features:

Absorbing and protecting. DryDent Parotid introduces new features for controlling saliva produced by the parotid glands. DryDent Parotid is placed directly over the open ducts of the parotid gland where saliva is optimally absorbed, allowing a more drier working area. Its super absorbent foam material traps unwanted moisture, facilitating drier fields for impression taking, cementation and filling procedures. DryDent Parotid's super absorbent capacity keeps moisture control even when it is fully saturated. It is made of smooth soft materials that provide maximum patient comfort throughout any treatment.

Available in:

Large (size: 50x43x2 mm, expand size: 50x43x10 mm)

Small (size: 40x36x2 mm, expand size: 40x36x10 mm)

Packages of 50 pieces.

Normal secretion: 0,25-0,35 ml/minute. Stimulated 1-3 ml/minute. For adults two DryDent Parotid and one big DryDent Sublingual absorb about 16 ml of saliva during a 30 minutes treatment.

DISPOSABLE NEEDLES - J MORITA

DISPOSABLE NEEDLES - J MORITA

Features:

J. Morita's disposable dental needles are designed for luer-lock and screw-on type syringes. These needles feature an indicator dot on the hub to ensure easy identification of the lancet bevel position for less insertion pain at the injection site. The containers are color-coded for easy identification. Universal plastic hub fits in most syringe types. Five sizes available.

- * Indicator dot on hub assures easy identification of the lancet bevel position for less insertion pain at the injection site
- * Lancet bevel point at cartridge end prevents blockage of anesthetic
- * Universal plastic hub fits most syringes
- * Color coding for easy identification
- * Economical

PREHMA DISPOSABLE NEEDLES - KEYSTONE

KEYSTONE - PREHMA DISPOSABLE NEEDLES

We offer sterile Prehma Disposable Dental Needles that come in short and long sizes. The needle is a sharp tri-bevel point for maximum comfort. The needles have a universal screw-in system that works with an inch-type of metric-type syringes. The plastic hubs are pre-threaded for an easy, straight attachment into the syringe. The needle is siliconized for smooth motion during injection.

- * Butt-end length: 11mm
- * Universal screw-in system to fit inch and metric syringes

Face Shields

FACE SHIELD - DEFEND

FACE SHIELDS - DEFEND

This Face Shield is made to fit over glasses and face masks. The adjustable velcro headband allows for a comfortable fit. The shield protects against splashing. It is anti-fog treated and latex and fiberglass free. Available in full and 1/2 shield sizes.

When you need total facial splash protection, choose the Defend Face shield. The face shields wrap-around design provides the wearer with great peripheral vision while acting as a protective shield against non-hazardous liquid splash and light particles. The adjustable velcro headband allows for a comfortable fit. It is anti-fog treated and latex and fiberglass free.

Gauze & Sponges

GAUZES AND SPONGES - DEFEND

GAUZES AND SPONGES ? DEFEND

COTTON FILLED GAUZE SPONGES

Defend has improved the performance of its cotton filled gauze sponges by adding 20% more cotton. Now more absorbent than before, these pure white, 8 ply sponges are shred-resistant and made of 100% cotton filled USP gauze. The 2 x 2 pads are available either sterile or non-sterile.

NON-WOVEN SPONGES

A great alternative to cotton filled sponges, these are made from a 4-ply, 32 gram rayon/polyester blend which provides for maximum absorbency and little adhesion to wounds. These are soft, smooth, strong, non-linting and non-sterile.

Available: in 2 x 2, 3 x 3 and 4 x 4.

ALL GAUZE SPONGE - RICHMOND

ALL GAUZE SPONGE - RICHMOND

Features:

Richmond Dental & Medical's Premium All Gauze Sponge is proof that a product that works well can also be simple and inexpensive. All Gauze Sponges have a loose weave, giving them a textured, cheesecloth-like appearance and a slightly abrasive surface, which means they provide a good grip.

GAUZE NON WOVEN - CROSSTEX

GAUZE NON WOVEN - CROSSTEX

Features:

Ultra Gauze non-woven sponges by Crosstex come in 3 different sizes; these non-sterile sponges are highly absorbant, and are easily released from incision and extraction sites. The eliminated adhesion to tissue surfaces aids in the healing process. Advantage Plus non-woven sponges are lint-free and strong, while also being soft and smooth; they are indicated for sustained patient use, disinfecting, and general cleaning.

Made in the U.S.A.

Available sizes:

- * 2" x 2"
- * 3" x 3"
- * 4" x 4"

TISSUE PROTEC - CROSSTEX

TISSUE PROTEC - CROSTEX

Features:

- * Provides a soft, comfortable edge to protect patient's soft tissue from digital sensor and x-ray film abrasions
- * Allows the patient to bite down harder on positioning devices for better positioning resulting in more accurate images
- * Easily adheres to film packets, phosphor plates and digital sensor barrier sleeves
- * Economical - decreases necessity for retakes, saving both time and money

Available in Blue and White

TRAYS COVER - CROSSTEX

TRAYS COVER - CROSSTEX

Features:

Crosstex Bracket Tray Covers come in a variety of sizes and can be waterproof, thanks to their polyethylene-backed paper, which prevents seep-through. This waxed, dual-purpose paper may be used poly-side down as a moisture barrier or poly-side up for quick mixing. This heavy-weight Crosstex product is made proudly in the U.S.A.

Saliva Ejectors & Aspir. Tips

ADAPTAPAL - DIRECTA

ADAPTAPAL - DIRECTA

Adaptapal is a flexible cannula adapter that reduces stress on the shoulders, neck, elbow, arm and wrist. It should be changed between each patient for optimal hygiene. You can use a maximum of 30 times in the autoclave Sterilizing or disinfecting washing (up to 121?) and that can form cracks where bacteria can accumulate.

Syringes Tips

3 WAY SYRINGE TIPS - DEFEND

Features:

DEFEND Air/Water 3-Way Syringe Tips are an excellent alternative to typical metal autoclavable tips. The disposable tips have an inner core water chamber that seats into the syringe, eliminating water contamination in the air chamber. The unique quad core design ensures instant dry air, prevents cross contamination, and delivers superior air/water spray.

DEFEND syringe tips feature an O-ring groove that secures tip lock for patient safety and eliminates leakage. The patient angle is identical to that of metal tips, providing ideal placement of the tip anywhere in a patient's mouth, and is strong enough to allow for retraction. More cost effective than comparable disposable tips, DEFEND syringe tips are available in clear, white and blue, in 250-count bags, and blue only in 1,500-count bags.

Water Filters

DENTAPURE - CROSSTEX

DENTAPURE - CROSSTEX

Features:

DentaPure is registered by EPA/FDA to meet ADA water quality recommendations. Unit will reliably and effectively reduce bacteria in dental unit water to less than 200cfu by eluting 2-6 ppm of iodine into the water lines. Installs easily to an existing water pickup tube. Uses I2 iodine, which contains no allergenic proteins.
